Exporting to DOCX

When you're ready to review your structure offline or share it with collaborators, you can export your outline.

Scryla generates a clean **DOCX document** containing:

- Chapter titles
- Chapter overviews
- Scene descriptions

This makes it easy to send your story outline to editors or import it into drafting tools.

child's future and strengthening the family's hope. His transformation is confirmed through sustained care rather than momentary charity.

Scene 5

The story concludes with Scrooge fully transformed, living generously, joyfully, and compassionately in all seasons. He keeps Christmas in his heart always, embodying the lesson of the spirits and proving that redemption is possible at any stage of life.

Export as .docx

Simply click the **Export as .docx button** from the Outline view to download your complete outline.
